Print Guidelines

Maximum Print Colours: 4

Coloured pens will require a white underprint for pantone colours.

Printing multi-colour on a coloured item will require a white underprint and 'trap', which may leave very small text/fine detail unclear.

Fill In

Filled areas with detail reversed out are at risk of filling in. Detail should be no thinner than 0.3mm

Matt print

Due to the nature of the product it is very difficult to get an exact coated Pantone match. The finish will be more matt.
