Print Guidelines

Maximum Print Colours: 1

White cannot be printed on the coloured pens as it goes translucent and becomes coloured. Black/dark colours should be avoided on the coloured pens as it is difficult to see on this product

Printing multi-colour on a coloured item will require a white underprint and 'trap', which may leave very small text/fine detail unclear. Pantone matches aren't possible with digital print.

Fill In

Filled areas with detail reversed out are at risk of filling in. Detail should be no thinner than 0.3mm
