4	Facing Right - Digital	60 x 8	DIGI

Print Guidelines

Maximum print colours: 4

Pantone colours are OK on this product but white should be avoided on the silver barrel as it is difficult to see. Printing multi-colour on a coloured item will require a white underprint and 'trap', which may leave very small text/fine detail unclear. Pantone matches aren't possible with digital print.

<u>Text</u>

Any text should be a minimum of 6 points. **Fine detail**

Fine detail should be avoided. Lines/detail should be no thinner than 0.3mm.

<u>Fill In</u>

Filled areas with detail reversed out are at risk of filling in. Detail should be no thinner than 0.3mm

*Average lead time based on MOQ, subject to stock availability and production capacity. Lead time starts from approval of artwork
